Tutorial: **How to make your best free Printable Flash greeting eCard for Kindergarten Kids, babies, Children or your own baby?**

The following tutorial will guide you how to make or create your best printable Flash eCard for Kindergarten Kids, Children or baby using the Maker Pro program. Before you make your best printable eCard for Kids Children or Baby, you need to free download the best Flash Card Maker Pro program and install it on your Windows Computer.

Now, let's begin to create your Printable Flash eCards with template.

This is a Printable Flash eCard online for Kindergarten created by [Flash Slide show Creator App](#)
If you put the SWF Flash Card on your website or blog, it will more wonderful and eye-catching. And you can also mail the dynamic SWF eCard to others via Email.

1. Launch the Printable eCard Maker program on your Windows PC.
2. Click the "Add" button to import your pictures for making eCard.
3. Set the transition effect for eCard. The Flash Card Maker offers all kinds of dynamic and animating effect for you to choose.

4. Design the pictures of Card. To make the eCard effect more eye-catching, you can design the pictures. Double click one image and there will pop up an "Edit Photo" window, where you can write your word, add all kinds of Artclips or more so as to make your eCard effect more impressed. In the article, I add some Christmas effects to the eCard.

5. Pick a template. The generator program App has two kinds of built-in template for making eCards. One is Basic template, the other is advanced template. If you would like to mail eCards to Kindergarten Kids, Children, babies or your baby via Email, it is better to pick a basic template for a making a SWF file. If you want to create customized Cards for put on website or blog, it is better to choose the advanced template. Here, I choose a Basic template, which allows me to mail to my Kindergarten kids in the email with a SWF file.

6. To design a unique audio Flash Card for mail to your kindergarten kids or children via email, you can add background music to the Flash ecard. Click the "Add" button on the template window to add music to your Card. If you want, you can also import your favorite song from a CD disc. (A music Card just for mail to others via email or put on website or blog. If you make the card printable, the music will be missing)

7. Publish your greeting eCard. The generator software does not have the "Print" function and if you want make a printable card for kindergarten kids or your baby, you will need to save the

card picture at first. But the Card maker does not have the “save” function. You can use an indirect way to save your Card on your computer. Please click the “PrtScnSysRq” button on your Keyboard to catch the picture and save it on windows “Paint” photo tool to get your Card picture. Or you can use free “catch screen” software to get your eCard. It is time to make your Flash Card to be printable now. In a few seconds, you will get your eye-catching greeting Card. When all your printable cards are ok, you can send them to the Kindergarten kids, children, babies or your own baby.

Ideas: How to mail the dynamic Flash greeting eCard to other via the email?

To mail SWF eCards to others, you need to get a SWF file. Go to the “Publish” window and choose “Create Flash files only” to publish your card and you will get a SWF file. Please attach the SWF file as the attachment in to your email and send to others.
